

Ceramic Mug & Plastic Mug

MG

Name/class

How to make your very own mug!

- ✓ Use strong, bold markers or texta pens, paints, craft dyes and good quality photos.
- ✓ Don't use pencils, crayons, metallics, fluoros or glitter.
- ✓ Glue your photos in place well. Large, bright close-up photos are best as they will slightly blur and darken during manufacture.
- ✓ Don't roll, fold or crease the paper.
- ✓ Be sure to draw the right way up or your picture will be upside-down on the mug.
- ✓ Both mugs are microwave and dishwasher safe.
- ✓ The right-hand side of the drawing will be facing a right-handed drinker; the left-hand side will be facing a left-handed drinker.

Products ordered

Write the **total quantity** of each item to be made from **this drawing** in the boxes below

Ceramic mug
250mL (actual size)

Plastic mug
250mL (actual size)

This way UP!

Up to ½cm will be trimmed from inside this drawing area during manufacture.

This drawing will be scanned.

Colours will be close but not identical to the originals.
Your original artworks can not be returned after processing.
Any marks in the drawing area will show on the final product.
The production process will blur and darken features in photos.
