

# iPhone 6+/6S+

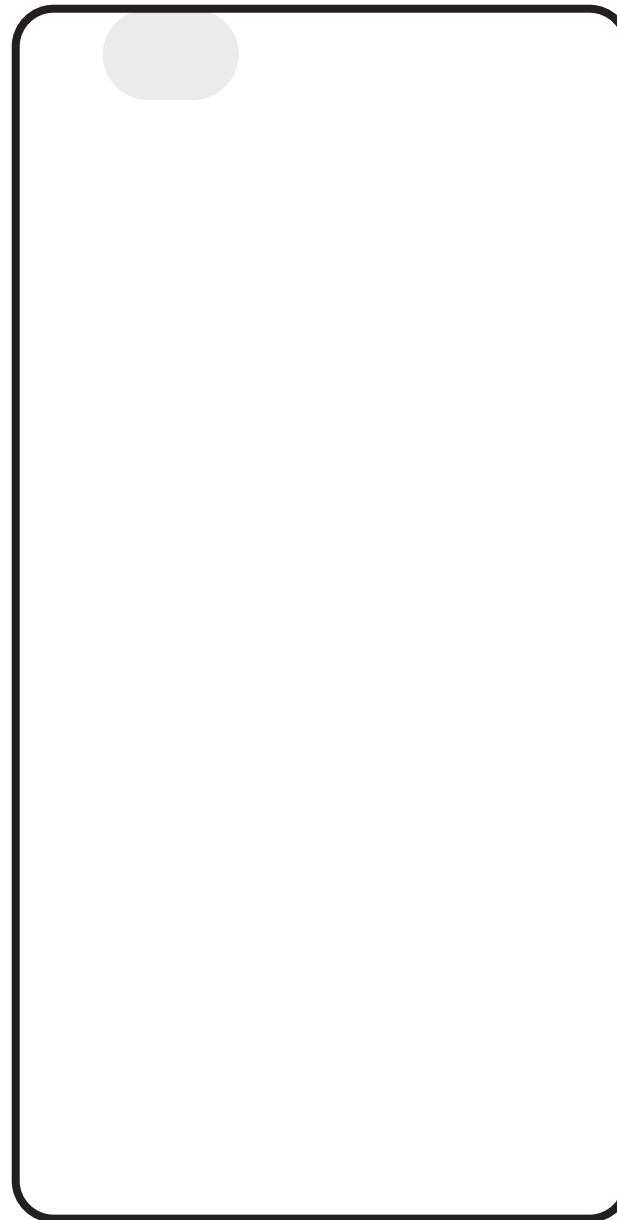

CS-IP6P

Name/class

## How to make your very own iPhone 6+ case!

- ✓ Use strong, bold markers or text pens, paints, craft dyes and good quality photos.
- ✓ Don't use pencils, crayons, metallics, fluoros or glitter.
- ✓ Glue your photos in place well. Large, bright close-up photos are best as they will slightly blur and darken during manufacture.
- ✓ Don't roll, fold or crease the paper.
- ✓ Be sure to draw the right way up or your picture will be upside-down on the phone case.
- ✓ Up to ½cm will be trimmed from the inside of the drawing area during manufacture, but please don't draw a pencil guide line as it will show up on your finished product.
- ✓ Print this page on clean white A4 paper. Some recycled papers can show small black spots which will appear on your finished product, so avoid these papers.
- ✓ This paper is for iPhone 6+ and iPhone 6S+ only. Download templates for other phones and products from [www.pictureproducts.com.au/drawing-paper](http://www.pictureproducts.com.au/drawing-paper)

### Products ordered

Write the **total quantity** of iPhone cases to be made from **this drawing** in the box below

Case in white

iPhone 6+, iPhone 6S+

Case in black

iPhone 6+, iPhone 6S+

### This drawing will be scanned.

Colours will be close but not identical to the originals.

Your original artworks can not be returned after processing.

Any marks in the drawing area will show on the final product.

The production process will blur and darken features in photos.

**Up to ½cm** will be trimmed from inside this drawing area during manufacture.
